

Таблица 1. Граничные значения импакт-факторов по тематическим категориям

Название тематической категории	Metallurgy & metallurgical engineering
Граничный (IF* = 0,25)	Mining & mineral processing
Agricultural economics & policy	Operations research & management science
History & philosophy of science	Otorhinolaryngology
Logic	Paleontology
Mathematics	Primary health care
Robotics	Rehabilitation
Граничный (if* = 0,5)	Telecommunications
Computer science, software engineering	Transportation science & technology
Engineering, aerospace	Veterinary sciences
Engineering, marine	Zoology
Engineering, ocean	Граничный (if* = 1)
Engineering, petroleum	Andrology
Materials science, characterization & testing	Audiology & speech-language pathology
Mathematics, applied	Automation & control systems
Nuclear science & technology	Computer science, artificial intelligence
Nursing	Computer science, interdisciplinary
Ornithology	Crystallography
Statistics & probability	Dentistry, oral surgery & medicine
Граничный (if* = 0,75)	Dermatology
Acoustics	Engineering, electrical & electronic
Agriculture, dairy & animal science	Food science & technology
Agriculture, multidisciplinary	Geology
Agronomy	Health care sciences & services
Anatomy & morphology	Instruments & instrumentation
Computer science, cybernetics	Integrative & complementary medicine
Computer science, hardware & architecture	Limnology
Computer science, information systems	Marine & freshwater biology
Computer science, theory & methods	Materials science, coatings & films
Construction & building technology	Materials science, composites
Education, scientific disciplines	Mechanics
Emergency medicine	Medical informatics
Engineering, civil	Medical laboratory technology
Engineering, geological	Microscopy
Engineering, industrial	Mineralogy
Engineering, manufacturing	Mycology
Engineering, mechanical	Obstetrics & gynecology
Engineering, multidisciplinary	Oceanography
Entomology	Ophthalmology
Fisheries	Optics
Forestry	Orthopedics
Horticulture	Pediatrics
Materials science, ceramics	Physics, fluids & plasmas
Materials science, paper & wood	Physics, mathematical
Materials science, textiles	Physics, nuclear
Mathematics, interdisciplinary applications	Public, environmental & occupational health
Medical ethics	Soil science
Medicine, legal	Spectroscopy

Sport sciences
Surgery
Thermodynamics
Tropical medicine
Water resources
Граничный (if* = 1,25)
Anesthesiology
Biodiversity conservation
Biology
Chemistry, analytical
Chemistry, applied
Chemistry, inorganic & nuclear
Chemistry, medicinal
Engineering, chemical
Environmental sciences
Geochemistry & geophysics
Geography, physical
Geosciences, multidisciplinary
Imaging science & photographic technology
Mathematical & computational biology
Meteorology & atmospheric sciences
Pathology
Physics, applied
Physics, atomic, molecular & chemical
Physics, multidisciplinary
Physiology
Plant sciences
Polymer science
Psychology
Radiology, nuclear medicine & medical
Remote sensing
Reproductive biology
Substance abuse
Toxicology
Transplantation
Urology & nephrology
Граничный (if* = 1,5)
Agricultural engineering
Allergy
Astronomy & astrophysics
Behavioral sciences
Biochemical research methods
Biochemistry & molecular biology
Biophysics
Biotechnology & applied microbiology
Cardiac & cardiovascular systems
Cell & tissue engineering
Cell biology
Chemistry, multidisciplinary

Chemistry, organic
Chemistry, physical
Clinical neurology
Critical care medicine
Developmental biology
Ecology
Electrochemistry
Endocrinology & metabolism
Energy & fuels
Engineering, biomedical
Engineering, environmental
Evolutionary biology
Gastroenterology & hepatology
Genetics & heredity
Geriatrics & gerontology
Hematology
Immunology
Infectious diseases
Materials science, biomaterials
Materials science, multidisciplinary
Medicine, general & internal
Medicine, research & experimental
Microbiology
Multidisciplinary sciences
Nanoscience & nanotechnology
Neuroimaging
Neurosciences
Nutrition & dietetics
Oncology
Parasitology
Peripheral vascular disease
Pharmacology & pharmacy
Physics, condensed matter
Physics, particles & fields
Psychiatry
Respiratory system
Rheumatology
Virology
